Watching tv  
Farming activities

## PROJECTS

### Service provider

The system Service Provider focuses on assigning work to contractor and workers. A Worker may work under a Contractor who oversees and directs projects. Although the worker might not work closely with the contractor, the two still work together to complete tasks correctly. Through the system user can scrutinize contractor's work and contractor can assign work to workers, so that contractor can complete pending works and complete the work undertaken according to user's requirement.
